

Take your business crafts to new heights with quality through Brother's PR1X. Experience unparalleled versatility in embroidering with new features and functions designed to offer convenience in stitching together beautiful designs.

START YOUR BUSINESS

with Professional Quality

High-Quality Japanese Brand

Elevate your business crafts with quality using Brother's PR1X. Made in Japan where reliability and quality are prized qualities, the PR1X is designed with absolute attention to its craftsmanship and detail, allowing it to deliver unparalleled versatility in embroidering. Greater convenience in stitching together beautiful designs is also achieved thanks to new and innovative features as well as functions.

Unique Needle Threading System

Easily thread needles with a single button press through Brother's easy-to-use advanced needle threading system.

Crosshair LASER Marker

Position needles and align patterns on your embroidery designs with absolute accuracy using the precise crosshair laser marker, which offers a clear indicator of the position where your needle will drop by lighting up your fabric.

EXPERIENCE

VERSATILITY

01.

VERSATILE EMBROIDERY

Experience versatility in your projects thanks to the wide range of embroidery options such as bags, caps, t-shirts and shoes possible with the PR1X.

LARGE EMBROIDERY AREA (200 X 300MM)

Produce larger designs and projects confidently with the machine's generous embroidery area of 200 x 300 mm.

7"

7" LCD DISPLAY

Edit your embroidery designs, access tutorials and navigate menus swiftly as well as effortlessly using the intuitive, large on-screen icons on the machine's 7", 260,000 colour LCD touch screen display.

02.

OPTIONAL FRAMES FOR VERSATILITY

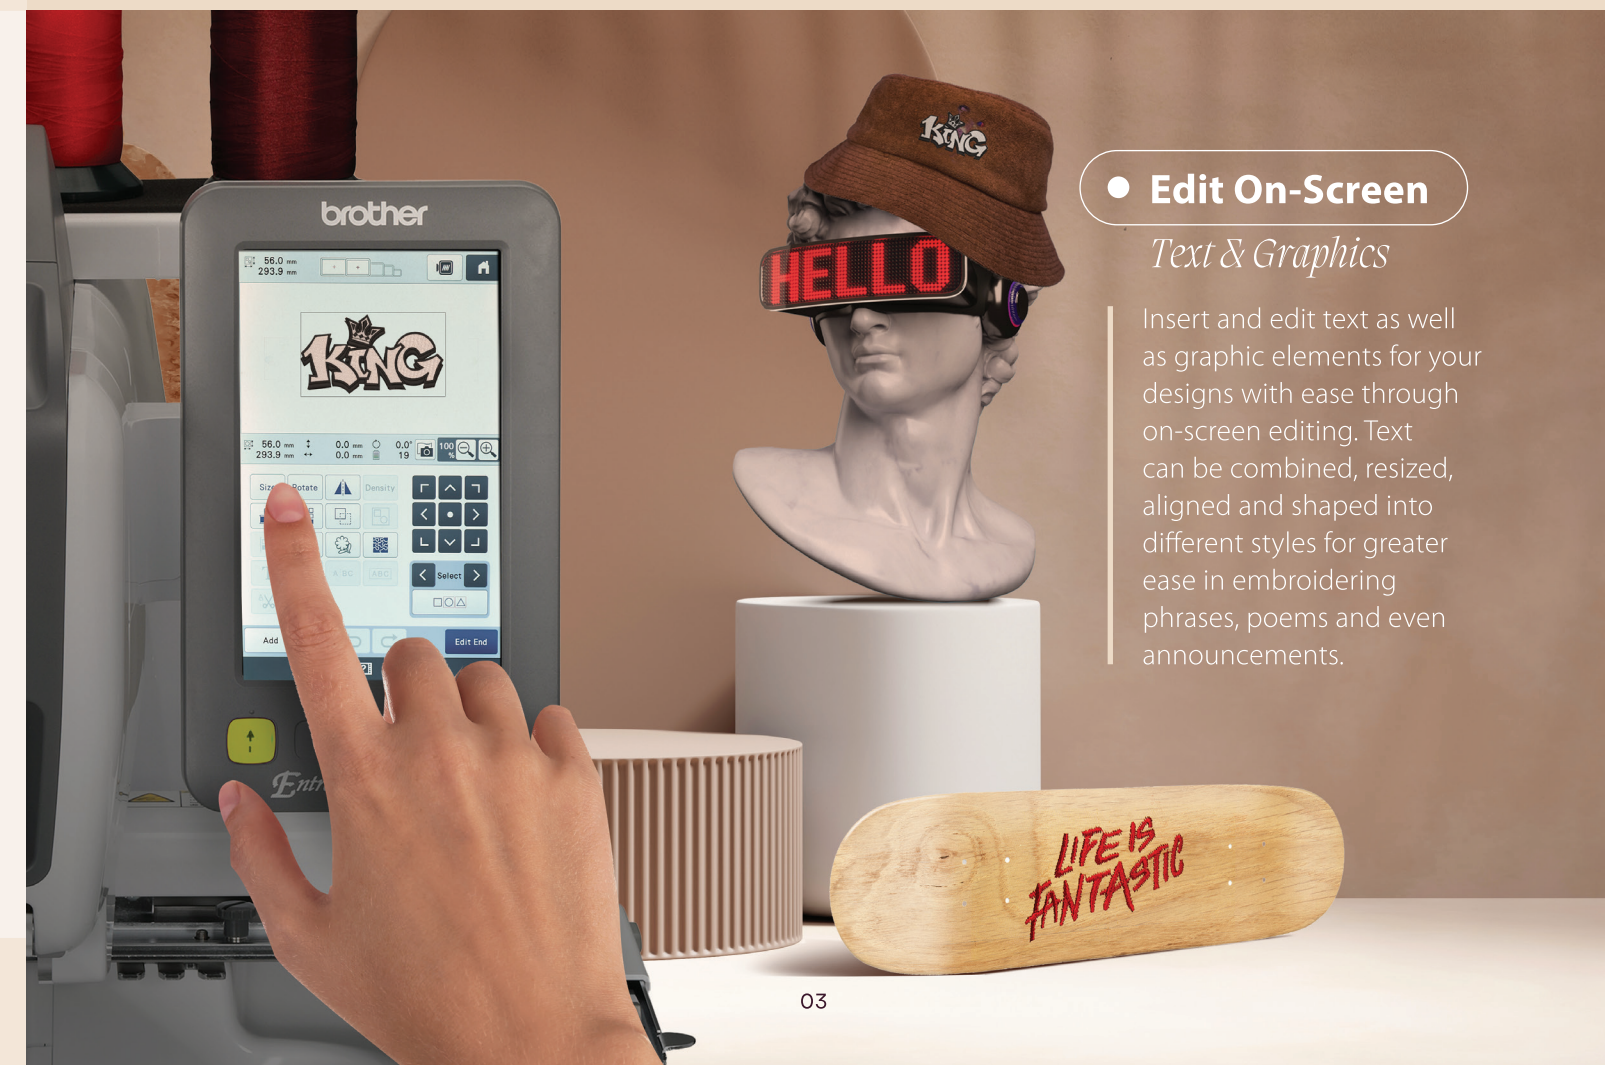

The PR1X can be affixed with multiple optional frames designed to meet a variety of embroidery needs for different products such as caps, jackets and shoes in your projects.

03.

INSTRUCTIONAL MOVIES AVAILABLE

Learn from tutorials and instructional videos that are easily accessible online through your Brother machine.

Edit On-Screen

Text & Graphics

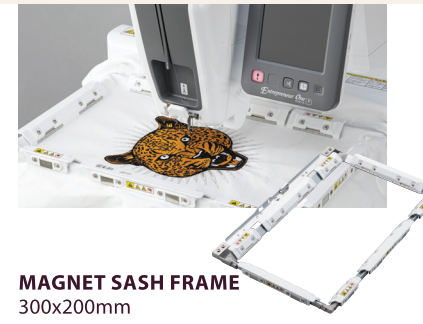

Insert and edit text as well as graphic elements for your designs with ease through on-screen editing. Text can be combined, resized, aligned and shaped into different styles for greater ease in embroidering phrases, poems and even announcements.

OPTIONAL ACCESSORIES KITS

Open up more options to take your creativity even further with accessory kits that can be attached to your machine.

Additional FEATURES

COMPACT DESIGN

The compact size and easy-to-use nature of the machine keep it in line with the rest of the PR series.

AUTO ANGLE-ADJUST POSITIONING

Perform automatic positioning by setting up 2 reference points through the cross-line laser.

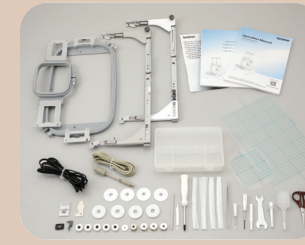

NEEDLE THREAD TENSION ADJUSTMENT

Suppresses material puckering for thin or stretchy fabric by allowing for the reduction of needle thread tension.

UNIVERSAL MAGNETIC FRAME

Allows for effortless securing of a wide range of fabrics on the frame.

35 INCLUDED ACCESSORIES & TOOLS

Additional accessories such as the 300mm x 200mm and 100mm x 100mm frames help to kick-start your embroidery journey.

BUILT-IN 3D FONTS

Effortlessly provides high-quality typefaces that meet business embroidery standards.

BUILT-IN EMBROIDERY FONTS

The 33 varied built-in fonts provide great value for any embroidery need.

BUILT-IN EMBROIDERY PATTERNS

The machine comes with a wide range of built-in patterns that help to meet every creative need.
