New Style thread guide for up to 20 weight thread	Industrial-type thread take-up lever	Anti-vibration base rubbers
Memorised needle up/down	Reverse stitch lever	Needle Type HLx5 (inc. with machine 5 x #14)
Variable stitch length up to 6mm	No Drop Feed	Foot control (large style)
Built-in needle threader	Adjustable knee lift	Dust cover
Foot pressure indicator window	Auto thread trimmer switch included	Machine weight 14.5Kg
Auto thread cutter	Extra-high presser foot lift (lever 6mm, Knee lift 8mm, Extra lift 12mm)	Large extension table – Optional
Needle up/down button	Variety of optional accessories available	Darning foot and darning plate – Optional

New Style Thread Guide

Adjustable, takes up to 20 weight thread. Thread guide shown on machine for ease of use, plus needle system requirement HL x 5.

Seamless Work Space

Machine bed has no joins, is flat, smooth and seamless, no catching and pulling of fabric. Width 225mm x height 140mm.

More Pressure

The HD9 provides up to 11lbs of pressure from the presser foot. Power through even the thickest layers of fabric without shifting.

Knee Lift

The knee lift lets you raise and lower the presser foot without taking your hands off your work. Quilters love this feature.

Ever True Stitch Length

Ensures the truest stitch quality regardless of sewing speed. Also allows easy transition between different layers of fabric.

Memorised Up/Down Needle Setting

This exclusive feature lets you control the needle's position at the end of the stitch. UP to move your fabric; DOWN for corners and pivots.
