

sashiko *machine*

The Sashiko machine is the latest innovation in creative sewing. Named after the ancient Japanese technique, this machine is designed to replicate the look of traditional hand-stitches never before seen on domestic machines. Exclusive to Baby Lock, the Sashiko machine perfectly mimics this distinctive and celebrated stitch.

A marvel of engineering that must be seen in action. The exclusive needle system requires just one thread in the bobbin to form beautiful, self-locking stitches. It features adjustable stitch length and spacing so that you can easily create your desired stitch on quilts, garments, accessories, home decor, craft projects and more.

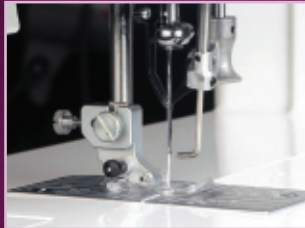

With the high level of quality and durability you would expect from a Baby Lock, the Sashiko machine makes a perfect addition to any sewing room. Now you can add an authentic hand-stitched touch with a household machine that is truly the first of its kind.

sashiko machine

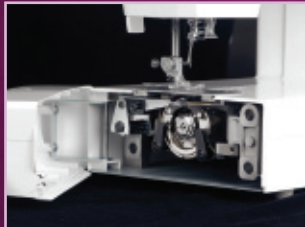

PRECISE SASHIKO STITCHES:

A simple needle working in conjunction with the exclusive latch wire system forms defined stitches and precise spacing to create a true hand-stitched look.

SIDE BOBBIN SYSTEM:

The side loading, oscillating bobbin system is conveniently placed for fast and easy loading.

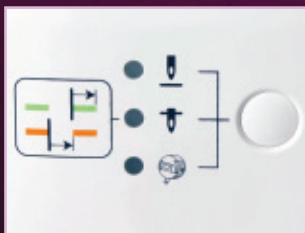

ADJUSTABLE STITCH SIZE:

Adjustable stitch length and spacing range from 2mm to 5mm, allowing you to create your own unique look.

COLOUR LED MONITOR:

This unique system allows you to easily recognize when the needle is creating a stitch or space.

ACCESSORY COMPARTMENT
