Spatula

No.1

STEP 1: Before you begin

- Make sure your wall is clean smooth and dry.
- Any texture, even certain type of paint on the wall will not allow your mural to adhere properly.
- It is at your discretion or your installer to determine if the surface is well prepared for a good adhesion.
- Our company won't be responsible if your mural doesn't adhere properly.
- We highly recommend to try a sample prior your installation.
- Adding a wallpaper primer is a plus.
- Open your wall in Vogue box make sure you have all your panels and they are not defective.
- Lay out your panels before beginning your installation to be more confident with the matching repeat.
- Our company doesn't accept claim after installation

No.2

STEP 2: Apply glue on the wall

- Put your glue on a tray or leave it in its bucket and take it with your roller.
- Then apply the glue directly onto the wall, making sure to cover the all surface. Be careful to not miss an area because this will cause air bubbles on you mural.
- We recommend you to apply the glue in an area equal to 1 panel and a half, so it will make it easier for you to install the second panel and make the seam invisible.

No.3

STEP 3: Installation of the First Panel

- Start the installation from the left to the right.
- The panels are numbered in order to be installed from left to right.
- After placing your fist panel and making sure it is totally straight, you can cut the bottom and top part.

No.4

STEP 4: Mural Installation and Finishes

- After installing the first panel, overlap the following panel, according to the pattern match.
- Then you can proceed to double cut of the extra paper. If an excess of glue come out of the seam, use a wet sponge or soft cloth to remove it right away.
- Start installing your panels from the ceiling to the floor, using a brush or spatula to paste the panel to the wall.
- Once your wall mural is entirely hung, take the craft knife and cut off the extra edges at the top and the bottom of your panels. Always make sure your blade is sharp to avoid ripping the paper.
- Let the mural dry for 24 hours.
