RATED AT 10 MICRONS

Clean Tech Water Filtration Has Arrived!

Industrial Water Filtration

- Superior water clarification.
- Rated to 10 microns at 95% removal during first pass. Better than sand!
- Irrigation, wastewater, ponds, aquariums

Lightweight

- 100x lighter than sand filter media.
- One lightweight bag of FilterBalls replaces two 50 lb bags of sand.
- Easy transport.

More Cost Effective

- Use your existing sand filter housing.
- FilterBalls costs less than filter sand.
- Save 33% to 70% on your energy bill.
- Less pressure in the system reduces power demand.

Improves Operations

- Back-washable and long lasting.
- Increased flow.
- Longer pump life.

Safer and Better for the Environment

- Safer material for employees to use and handle
- Easy disposal. Last longer than sand.
- 100% recyclable and green! three to five years.

Green

100 Times Lighter than Traditional Filter Sand

10 cubic feet

10 POUNDS
of FilterBalls
vs.
1000 POUNDS
of sand

Unprecedented Performance vs. Other Media

				
CHARACTERISTICS	FILTERBALLS	SAND	MULTI-MEDIA	
Weight/ft ³ Dry	1 lb	100 lbs	90-110 lbs	
Weight/ft ³ Wet	1.1 lbs	150-175 lbs	150-175 lbs	
Flux Rate/ft ² Media	7-30 gpm	3-10 gpm	3-10 gpm	
Micron Removal 95%	5 microns	35 microns	25 microns	
Initial Differential Pressure	<1.0 Psid	7-15 Psid	5-10 Psid	
Lifetime	4-5 years	3-4 years	3-4 years
