THE ALFA RUGGERO

Introducing the ALFA... the latest addition to our popular Ruggero range.

The ALFA has all the features of our classic Ruggero, but with a new updated body, sleek curves for a unique new look.

Express yourself, your colour, your design, your logo.

With a customised coloured body and a light display panel that advertises your business. Craftsmanship, quality and exclusivity....

These are the features that make the ALFA a truly unique espresso machine.

Hand assembled in Melbourne and custom made to order, the ALFA is exclusive to Disavè Espresso Equipment Suppliers.

The original Ruggero was designed by John Slade in 2005 as a tribute to his late father in law, Henry Rogers, and keeping with tradition Paul Slade has designed the new ALFA to compliment the range with a new unique look.

2 Group High Group

Power requirement:	15 amp
Heating element power:	3050 watts
Heat exchanger size:	2 x 450mls
Copper steam boiler size:	11.5 ltrs
Hot water outlet:	1
Steam outlet:	2
Steam pressure gauge:	Included
Pump pressure gauge:	Included
Pump type:	Rotary
Weight (kgs):	65
Dimensions (WxDxHmm):	770x635x570

2 Group Multi Boiler High Group

Power requirement:	15 amp
Heating element power:	3050 watts
Coffee element power:	1200 watts x2
Coffee boiler size:	1.5 ltrs x2
Copper steam boiler size:	11.5 ltrs
Hot water outlet:	1
Steam outlet:	2
Pump pressure gauge:	Optional
Pump type:	Rotary
Weight (kgs):	80
Dimensions (WxDxHmm):	770x635x570
