

VITANICA® ~ FEMREBALANCE™

FemRebalance is designed to promote a woman's normal hormone profile. There are many reasons the endocrine system becomes disrupted and this formula offers support to 'reset' hormone levels.

Featured Ingredients:

- **Borage Oil** is rich in gamma linolenic acid (GLA), which research shows to be beneficial in supporting hormonal balance for women
- Botanicals promoting regular ovulation and overall hormone balance support: **Chaste tree berry, Licorice, Black cohosh**
- **Maca root** is included for overall tonic support for the endocrine system
- Traditional herbal support comes from **Vervain** and **Sarsaparilla**, both of which have a history of tonic support for women's menstrual cycles
- **Rhodiola** is included for adaptogenic and antioxidant support, especially helpful after cleansing or when hormones are out of balance

Indications: Formulated to restore and reset a woman's hormone profile, especially after a detox protocol, after discontinuing birth control pills, when finished breastfeeding, during perimenopause to ease the transitional time and numerous other situations that upset the balance of the endocrine system.

Suggested Use: 2 capsules per day

Size ~ 60 caps; Item code ~ 7-08118-01267-9
