

RAMBO BIKES

R144 PLATFORM

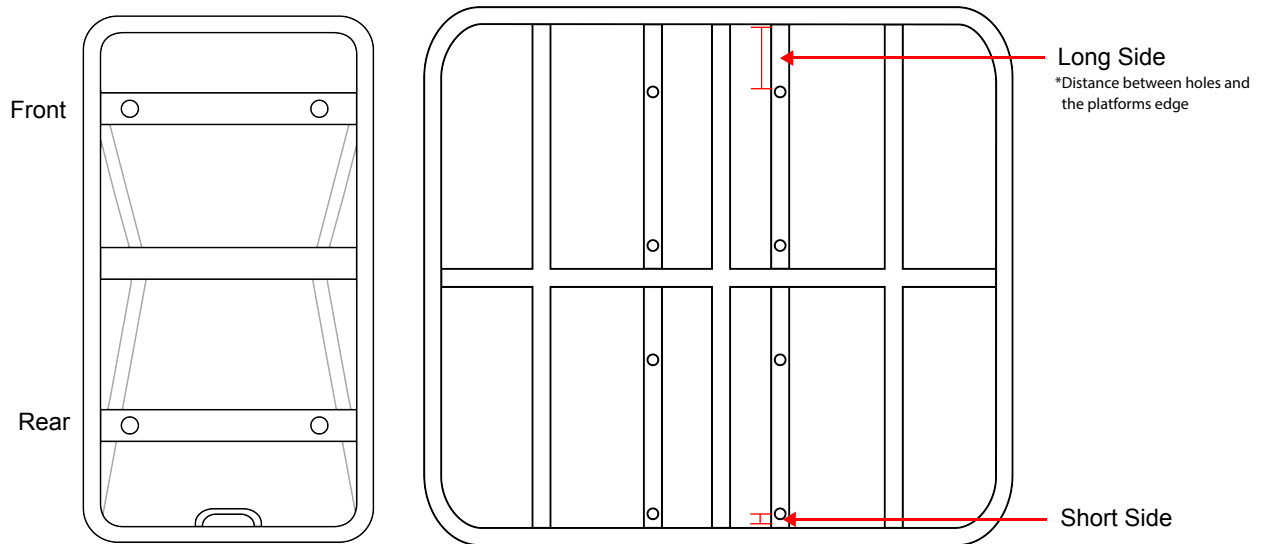

⚠ WARNING: Please read instructions manual carefully before commencing the assembly of this luggage rack. Cycling can be a dangerous activity! Never alter or modify your bicycle or accessories. Read and follow all product instructions and warnings including information on the manufacturer's website. Bicycle products should be installed and serviced by a competent mechanic. Always wear a helmet. Inspect your bicycle before every ride. Bicycle steering and braking may behave differently with a loaded rack. Position lights and reflectors so that they are not obscured when the rack is loaded. Do not carry any live cargo (i.e. pets or persons) as this may cause a shift in balance and a crash resulting in serious injury to both you and your cargo. Evenly distribute weight on rack. An improperly loaded or modified rack can cause you to lose control and fall. Never attach straps, rope or bungee type cords to the rack in such a way that they may become entangled in the wheel or interfere with the safe operation of your bike. NEVER MODIFY YOUR RACK OUTSIDE OF THESE INSTRUCTIONS. Additional product and safety information can be found at the website <http://www.rambobikes.com>.

R144 PARTS LIST		
Part#	Description	Qty
RP-143-01	6mm x 35mm Allen Bolt [A] (Short)	4

RP-143-03	6mm washers [C]	8
RP-143-04	6mm nut [D]	4
RP-143-05	10mm spacer [E]	4

PLATFORM

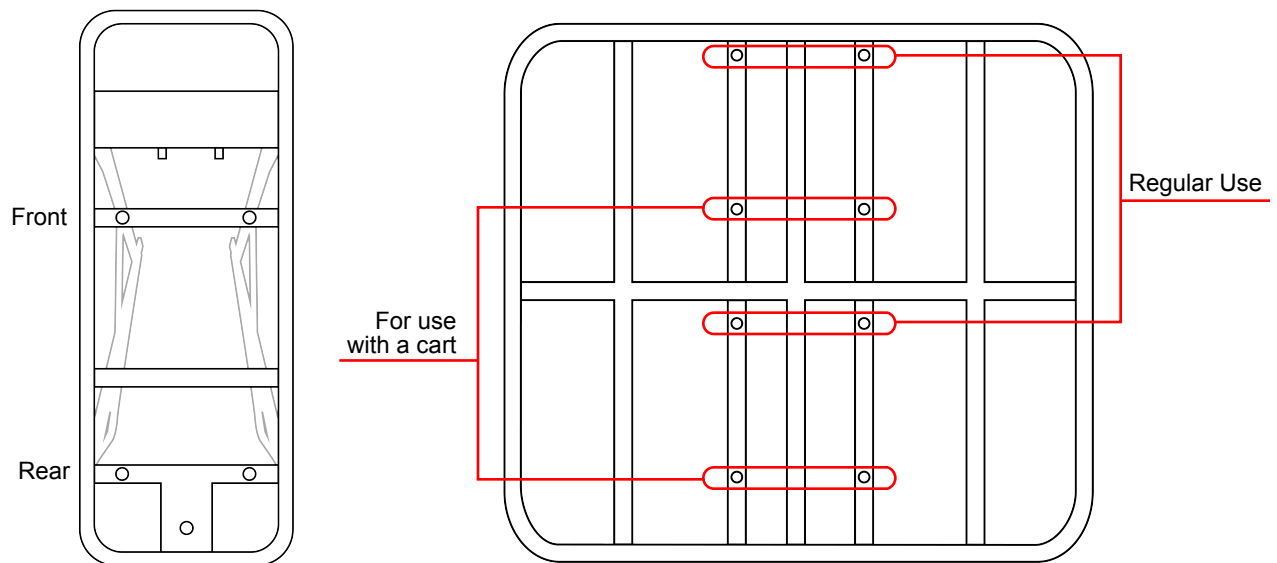

R151 FRONT RACK

Attaching your platform to the front luggage rack: Your platform comes with offset holes, please note that the "short side" of the platform must be facing backwards allowing your platform to sit forward giving room for the electrical wires. Use four short allen bolts [A], eight washers and four nuts to secure to the front luggage rack. (no spacers required)

R150 REAR RACK

Attaching your platform to the rear rack: Your platform comes with offset holes, please note that the "short side" of the platform must be facing forward allowing your platform to sit back further, giving more room for the rider. Use four short allen bolts [A], eight washers and four nuts to secure to the front luggage rack. (no spacers required)

Note: If using Rambo cart install the platform on the second set of holes (moving the platform forward). Use the four spacers between the platform and the rack to add extra space for cart hitch. Then be sure to use the four longer bolts [B] to attach the platform to the rack.
