

BONNE CHOICE BLOQUES

BONNE CHOICE

BONNE CHOICE

Designed By Bonne Choice Using Ettore Sottsass Veneer

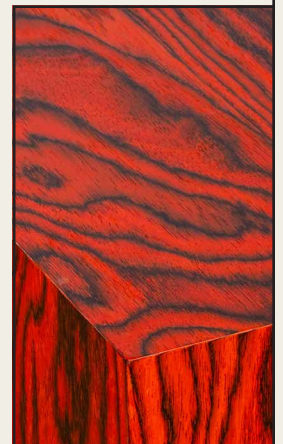

The veneer created by Ettore Sottsass in the 1980s – utilized for the first time in the Memphis collection – now becomes part of the Bonne Choice Bloques range in three color variants: red, orange, and grey. The Sottsass models accentuate the image of the grain and bring out the deeper colors of the wood, suggesting unusual combinations in the designer's typical style.

Finished on all sides, they can be used in any configuration. The modular nature of the pieces encourages play - use them on their own or combine to create your own arrangement.

Made In Canada
