Application	Benefits	Fire Certification	Acoustic Certification
Suitable for use in bedrooms, living rooms, feature walls and office spaces. Product is wall-cladding, not wall-forming, there must be a wall for installation.	<ul style="list-style-type: none"> ● Beautiful aesthetics ● Easy installation with screws or adhesive ● Improved insulation ● Great acoustics, reduce noise and echoes ● Simple maintenance 	Group 3 fire-rated wall cladding adhering to AS ISO 9705-2003 and AS 5637.1:2015 standards	Average noise reduction coefficient of 0.70 according to GB/T 20247-2006 standard.

Properties of Wood Veneer	Storage	Cutting Panels	Installing Panels
Due to the nature of real wood the veneer finish can vary from slat to slat and panel to panel.	Lay flat until installation in a covered area.	Use a very sharp saw to cut through the slats and felt width ways.	<p>You have two options for installing panels:</p> <ol style="list-style-type: none"> 1. Glue them straight to the wall with a construction grade adhesive. 2. Screw them into your wall. Use matching screws with the PET felt (ex. black screws with black felt).
