

THE PROFESSIONAL COMBINATION OF BEAUTY AND STRENGTH

77 Serious Strength Equipment

 SHUA

Innovative and functional structure

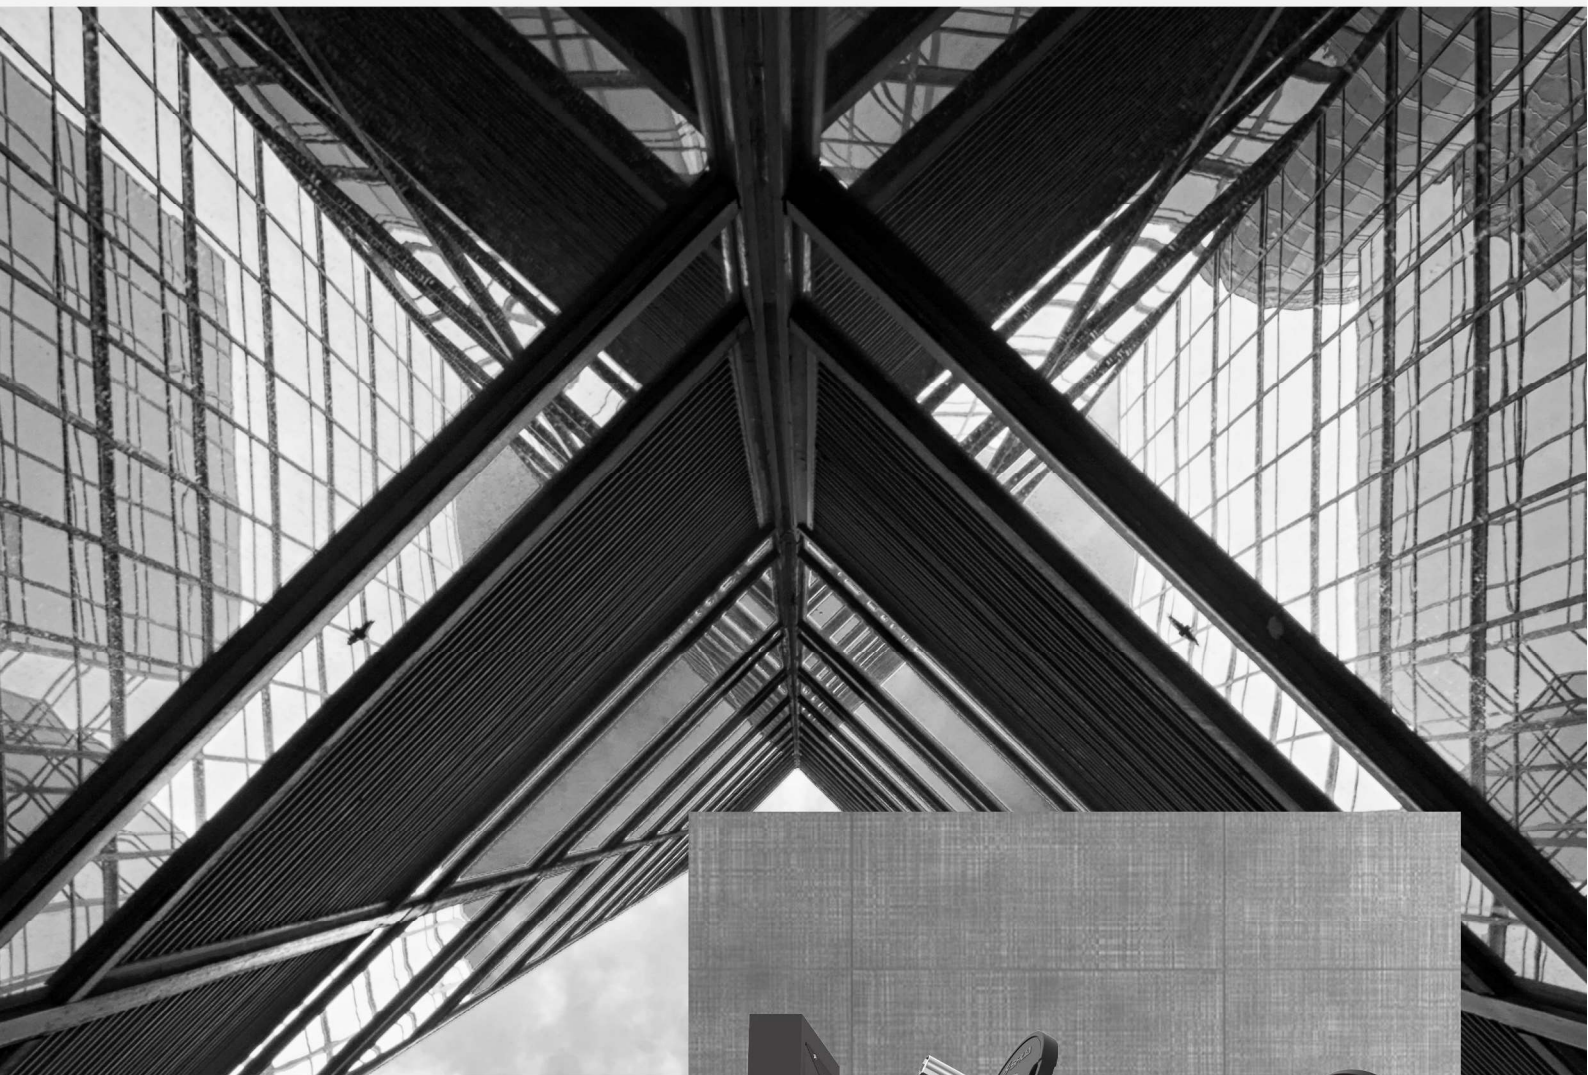

77 series equipment combines the characters of selectorized and plate loaded. Converging structure provides free strength groups, meeting all levels of intensity, from beginners to professionals.

Ergonomics Design

SHUA Research and Development creates this ergonomics design to deliver smooth and comfortable exercise experience with precise angles.

Premium Crafts

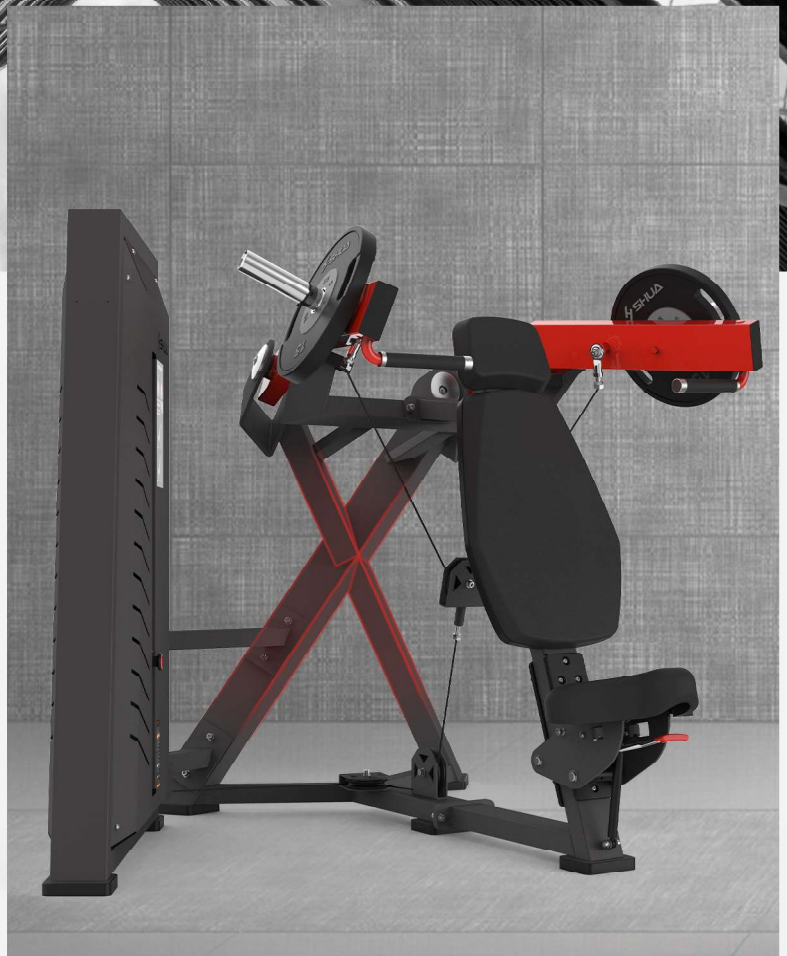

The unique structure of 77 Series is made of top steel. The stereoscopic cutting and welding in different angles and positions ensure the high quality and performance with advanced producing crafts.
