### SETTING THE DATE

1. Pull crown out to the 1st position – turn the crown clockwise or anti clockwise.
  2. Turn the crown to set date (day of the week) – day of the week can be displayed either character by your choice. Between 9:00 p.m. and 4:00 a.m., the date (day of the week) may not change on the following date (day of the week). This time period is not ideal for setting.
  3. Push crown back to normal position – when date (day of the week) changes during daytime, it happens when AM/PM is wrongly set. Advance the hour hand by twelve hours.
