Mission & Visione

As Novussi we know how important durable products are. We manufacture all of our products from 100 % recyclable, fiberglass-reinforced PP. Our process is tailored to reduce waste as much as possible. We store discarded pieces in our unique designs to be remelted. Sustainability isn't just about recycling, it includes creating non-disposable products, using processes with low carbon emissions and responsibly managing waste from production.

As a leading representative of outdoor furniture our primary goal is to produce quality and value. With our 25 years of experience in this sector, we bring a new breath to your living spaces with our products which are produced by using Italian molds and designs.

How about a long journey with Novussi products prepared for those who care about comfort, quality and style?

novussi

According to the story, the beautiful daughter of the fairy sultan fell in love with a shepherd in Cappadocia. Despite all the obstacles of the fairy sultan, his daughter ran away to the shepherd and they got married. Over time, they had a child. The fairy sultan, on the other hand, got more angry when he heard this news and sent his soldiers to find the shepherd and his daughter. When the daughter of the fairy sultan saw the soldiers coming towards them from afar, she prayed to the soldiers not to separate her and her family from each other. The fairy tale wish was granted and the three of them turned into these three beautiful fairy chimneys and stayed together forever.
