

UltraSpeed Mini Mops

The complete cleaning solution for all floor types

Speedy, multi-functional mopping system for small areas

UltraSpeed Mini is a compact and versatile 34cm flat mopping system ideal for cleaning small areas (10-30m²) including offices, kitchens, canteens, small shops, reception areas and washrooms.

In addition to floor cleaning UltraSpeed Mini can be used to clean:

- Walls
- Tiling in kitchens and toilets
- Skirting
- Staircases
- Safety floors (with the Safe Mop)
- Behind pipes and toilets

MicroLite Mop Pad

General purpose 100% microfibre mop pad for deep down cleaning of all floors

- Microfibres absorb dirt, grease and bacteria providing the highest cleaning performance without the need for aggressive chemicals
- Excellent chemical and temperature resistance
- Power zones aid removal of stubborn dirt
- Suitable for damp and wet floor cleaning
- Press stud attachment to frame
- RBGY cut off tags for colour coding

Safe Mop Pad

Specifically designed for removing stubborn dirt and cleaning safety/rough floors.

- Extra hard, cut pile nylon fibres penetrate into the rough, uneven surface of safety/rough floors to loosen stubborn dirt.
- Suitable for wet scrubbing.
- Durable fibres – no shedding throughout its lifetime
- Press stud attachment to frame
- RBGY cut off tags for colour coding

Durable

Both mops are suitable for use with chemicals and can be washed up to 150 times.
