## About Klean Freak

The KLEAN FREAK story began on a camping trip in Zion National Park. Our creator, a world traveler known to get himself in a lot of dirty, nasty, sticky icky icky, ooh wee situations, found himself in yet another freakin' funky predicament after a long hike. If only there were a product, he thought, that provided single use body wipes infused with amazing, natural ingredients and conveniently packaged for the on-the-go individual. Well there wasn't, so he smelled. BUT, the seed was planted, and it set us on our mission to cure the world of nasty B.O., one product at a time.

KLEAN FREAK teamed up with some dang good scientists to formulate the “best of the best” body wipes that gives you a refreshing, confidence-boosting kind of KLEAN. We tapped into some amazing ingredients that hydrate the skin while also ridding it of bad bacteria, cleared by the FDA and safe for even the most sensitive skin.
