## METAL TREATMENT

### HYDRO-SOLVE™

FORMULA 513

Cleaner and Degreaser

#### DESCRIPTION

Hydro-Solve™ is a nonflammable, nontoxic, non-corrosive liquid concentrate which removes grease and grime from most surfaces quickly and efficiently. It is a blend of solvents, emulsifiers, and builders, specifically designed for use in parts washers. It quickly penetrates grease and grime found on most tools, engine parts, and any other ferrous surfaces. Hydro-Solve™ also contains corrosion inhibitors which protects metal surfaces from flash rusting. It is a multipurpose cleaner which can be used for a complete cross-section of jobs.

## RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution.
