## stone mason meets modern design.

More than 20 years since I first took that brave step, I am now working from a state-of-the-art factory with a skilled team of 35 alongside me. The same care and attention goes into every meticulously finished project, and I am proud of the elegant creations we produce for our customers every day.

The company aim is to delight all our customers with high quality furniture that enhances all interior and exterior design projects.

## heritage

"I have always loved working with stone. The purity of the material, its ancient textures, natural flow and colours all inspire me. Working as an artisan stone mason in the late 1990s, I decided to take a leap of faith and start my own business. I wanted to make the best of my skills and experience to create beautiful things, beginning with bespoke worktops.

I started small with a tiny workshop in a garage in the Devonshire village of Kingsteignton, working hard and listening carefully to my customers. The result was a steadily growing reputation as a master craftsman, and by the turn of the millennium I was able to open my own showroom, displaying a wide range of luxury worktops in man-made materials and natural stone".

**Steve Bristow**

## ...we are about people and making beautiful products

First and foremost we are a family owned and led business. With a new facility opened in 2018, together with investment in new equipment, we passionately embrace modern technology and are proud to have introduced the first cutting robot of its type into the UK stone industry enabling us to make the most precise and detailed cuts. Internal design and development using 2d and 3d rendering software helps us to develop and bring creations to life.

Sustainability is core to our business – we utilise natural materials and have our own water recycling plant. All water used within the factory is rainwater that has been collected and a second treatment plant was installed in June 2020.

We have over 150 years of stone craftsmanship experience within the business which proves crucial in our ability to realise complex solutions in stone and all products are meticulously hand finished by skilled craftsmen.

We continually strive to push the boundaries of technology to create unique pieces and perhaps we are most proud of our ability to bend and shape quartz which is the fourth hardest mineral known to man, to create stunning statement pieces.

**Steve Bristow sources the finest materials globally.**

We specialise in working with granite, quartz, sintered stone and marble, working with the major brands and suppliers where many friendships have been built with our long standing partners over the years, not least, our world renowned marble suppliers in Carrara, Italy.

**Quartz** Is made from quartz particles compressed and bonded with a small percentage (approx 7%) of colourants, resins and polymers under high temperature that creates a uniform colour and pattern. Quartz is non-porous, stain resistant and ideal for high traffic areas where consistent and uniform colours are required. Normally specified for indoor use as the colour may fade over time if subject to long periods of UV light.

**Granite** is a natural material with no two slabs being the same as the pattern and any veining have been formed over millions of years. Granite is durable, hard wearing and ideal for high traffic areas where a unique pattern or colour is requested. Can be used both indoors and outdoors.

**Sintered stone** is made from granite particles that are heated and compressed under extreme pressure that mimics the formation of the earth's crust. The result is a very strong surface that is non –porous, stain resistant and is available in thinner thicknesses than granite, quartz or marble. Ideal for use in high traffic areas both indoors and outdoors and including commercial environments such as restaurants.

**Marble** is a natural stone and like granite, is found with variations between each slab. Marble is a porous and soft material so although being the epitome of luxury can be less hard wearing than the other stones we work with.

We only use high quality toughened and tempered **glass** typically, with bevelled or rounded edges. Tinted glass is also available.

Our **metal** work is finished using either powder or spray coated finishes that can be lacquered for extra durability and ensures most can be used outdoors. We also work with polished stainless steel and brass for added opulence.

Our furniture always reflects the latest trends in materials and colour finishes. We are proud of our materials palette and offer an extensive stock holding from which to choose.

## our furniture philosophy

We specialise in quartz and stone products with every piece being hand made in our Devon workshop with unrivalled artistry and skill. The result is flawless luxury furniture that combines contemporary design with timeless style. From elegant dining to bold boardroom pieces, experience our passion, precision and craftsmanship.

Together with the finest materials, we embrace new technology to shape quartz and to create statement pieces for all interior design projects.

Our portfolio contains a collection of stunning marble, granite and quartz dining tables, console tables, occasional tables and coffee tables, with a bespoke service available too.

Our bespoke service allows you to work with us and our 3d rendering software to bring your luxury product to life. Each end creation is unique and crafted to your individual requirements.

# CONCORDE DELTA

side tables

Delta Side table

Uniquely styled and crafted statement pieces.

**Delta** has been based on the famous plane wing and combines an obelisk base with colour co-ordinating sleek looking metal top.

Taking inspiration from the Paris Place de la Concorde, and the Egyptian Luxor Obelisk, the **Concorde** combines a pyramid base with colour coordinated metal top.

Bespoke solutions allow for limitless colour creativity. Please contact us for these additional options.

Concorde side table

Calacatta marble base with Gold top and Nero Marquina Quartz base with gold top

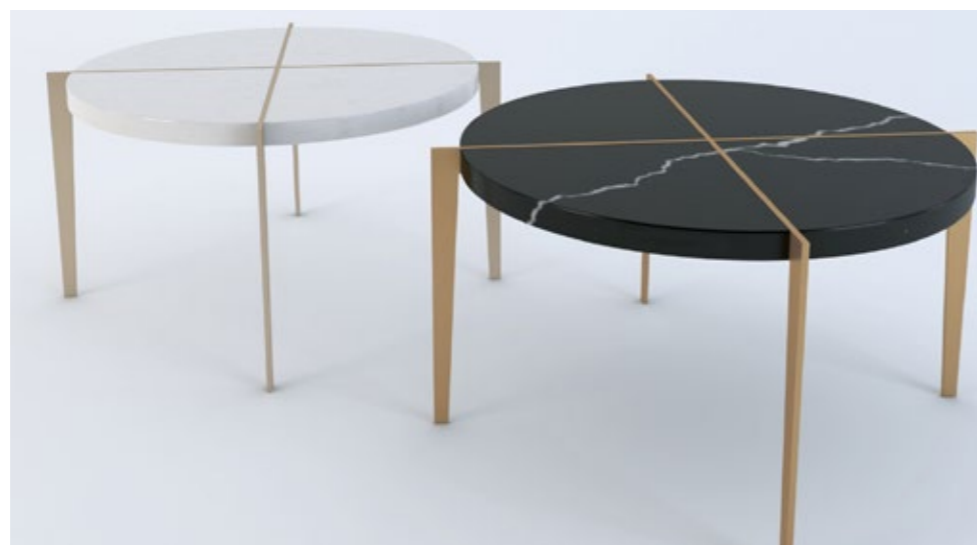

Concorde side table - Graphite top.

# LEGATO MELBOURNE TRIOMPHE

side tables

Melbourne Side Table

Melbourne Lamp Table

Melbourne Coffee Table

The **Melbourne** collection includes lamp, side and coffee tables across 6 standard sizes. The circular tops are dissected by the colour coordinating metal frame that provides extra detail on these modern pieces.

Available in a selection of non-porous, stain-resistant quartz materials, granite and colour co-ordinated metal. Bespoke options allow for limitless colour creativity. Please contact us for these additional options.

Legato Side Table

The **Legato** side table combines elegant and graceful interlocking curves with the design working perfectly in both modern and traditional room settings. For added opulence and elegance the base can be mixed with metal to complete this luxurious piece.

Available in a selection of non-porous, stain-resistant quartz materials, granite and colour co-ordinated metal.

To complete the perfect look, matching Dining and Console tables are also included in the range. Bespoke options allow for limitless colour creativity. Please contact us for these additional options.

Triomphe side table

The **Triomphe** side table combines a geometric shaped base and metal top.

Available in a selection of non-porous, stain-resistant quartz materials, granite and colour co-ordinated metal. A matching Dining and Console table are included in the range. Bespoke options allow for limitless colour creativity. Please contact us for these additional options.

# LOUVRE OSLO

side tables

Louvre Side Table

The **Louvre**. Inspired by the Pyramide Inversée, this occasional table combines the two most basic geometric shapes – the square and triangle – into a stunning design. The side table combines solid stone and metal creating a luxury statement piece.

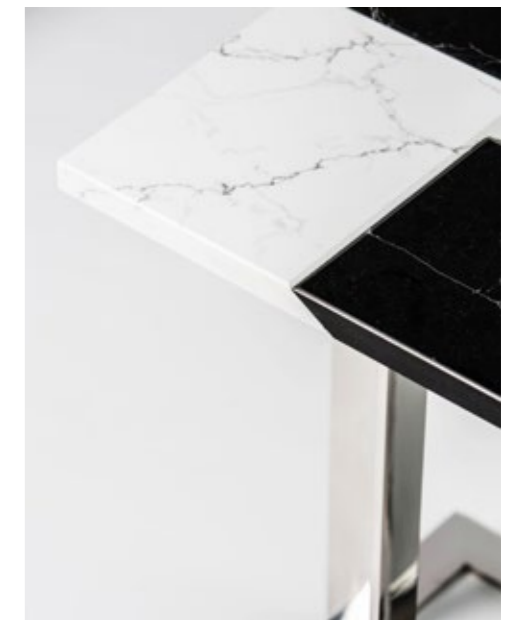

The **Oslo** with its precision cut solid stone top provides a stunning piece. The fine detail on the interlocking pieces highlights the superior quality of the workmanship.

Louvre and Oslo are available in any quartz, granite or marble material.

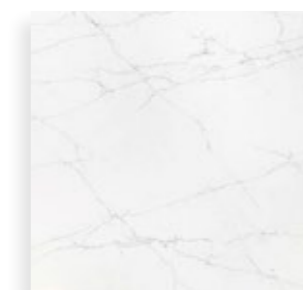

Bespoke solutions allow for limitless colour creativity. Please contact us for these additional options.

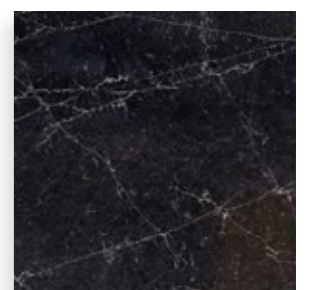

Oslo Side Table

Studio Line Coffee & Console

**We offer a bespoke service for customer commissions, hospitality and commercial projects.**

We make your furniture designs come to life. Using the highest quality materials, we can create a bespoke piece made only for you. Speak to our in-house designers about your dream product or collection, and we will develop a stone furniture piece tailored to your style and space. Have a closer look at our process below:

**1. Get In touch**

Reach out to us via our contact page, give us a call, or pop into our showroom. We will talk through your ideas and together develop a detailed render of your dream furniture piece that meets all of your practical and style needs.

**2. Choose your material**

Choose from over 200 materials sourced globally or ask for a specific colour that we will source for you. We pride ourselves on sourcing a material that will match each individual clients' lifestyle, vision and practicalities. Steve Bristow Furniture will always have your perfect individual material, from natural Granite and Marble, to manufactured Quartz and Sintered Stone.

**3. See your design proposal in 3D**

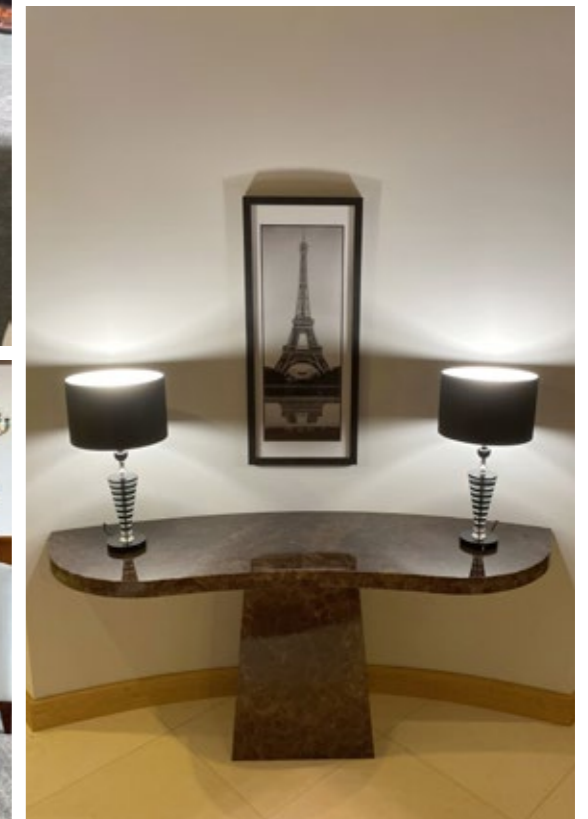

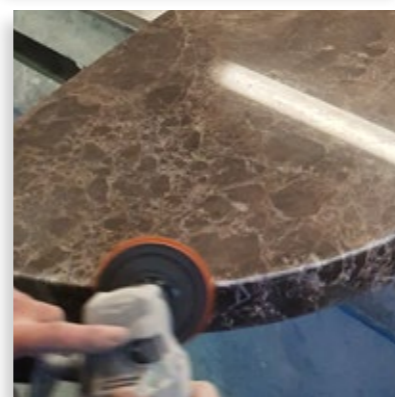

Once you have decided on your design, and told our designers about your style and needs, we will recreate your furniture piece in 3D. This imagery allows you to see your design in full 360-degree view, so you know exactly what you will receive on delivery day.

**4. Creation**

The next stage is down to our skilled craftsmen in the workshop. Steve Bristow Furniture has invested significantly in modern technology, and we are the first UK company to use robotics of its type in stone masonry. Our robots will use the utmost precision to cut your design, and then hand it over to your designated craftsman. Every furniture piece is hand finished to perfection, including hand-polishing for the highest quality finish.

**5. Delivery**

Then you can sit back and wait. Our team of trusted delivery drivers will carefully package your new luxury piece and deliver it to your door. We will arrange a delivery day to suit you, and let you know a time slot to make the process go as smoothly as possible for every customer.

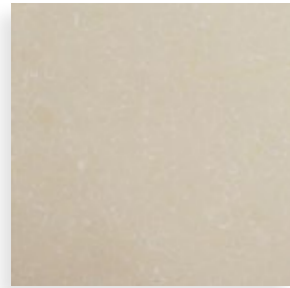

# material finishes

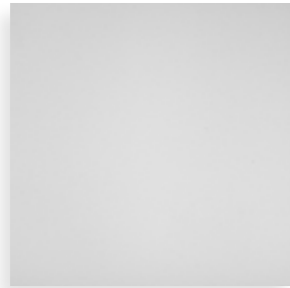

We have curated a wide and beautiful array of materials and finishes.

Hand picked, our stones are selected to meet the most stringent quality and performance demands. We are always happy to discuss your requirements and help you choose the perfect solution. Below is a selection from our comprehensive range.
