## ACTIVE ALL TERRAIN

How to Care

### HOW TO CARE

While this filter can efficiently filter pond, lake and river water, always use the cleanest, clearest water whenever possible.

Dirty water may prematurely clog the filter and greatly reduce the filter life expectancy.

When filter is not used regularly, remove filter from the bottle and allow to air dry.

Store filter dry when not use daily. Until first activated, filter can be stored indefinitely.

Always remove filter before cleaning the bottle.

Do not use cleaning detergents on filter.

Do not allow unit to freeze.

Do not place filter in dishwasher or microwave oven.

Do not run hot water through filter.

# Survivor Filter®

## ACTIVE ALL TERRAIN

What it Filters

Tested independently in the USA  
to show 99.99% filtration removal of:

### **Volatile Organic Compounds (VOC's)**

Household-cleaning compounds, industrial wastes, insecticides

### **Trihalomethanes**

by-products of chlorine disinfection

### **Microbiological Organisms**

### **Inorganics**

Trace metals, Turbidity

### **Radiological**

## Laboratory Test Results for Bacteriostatic Water Filters:

### **Taste & Odor Reduction**

Two water treatment units were evaluated for taste & odor reduction claims by the procedures described in NSF (National Sanitation Foundation) Standards 42, Aesthetic Effects.

### **Volatile Organics Reduction**

Accessories

### Neoprene Carrying Case

#### Interchangeable Strap Lengths

The carrying case makes it easy to take the water filter bottle anywhere. You can wear the carrying case around your waist or across the body with the 2 strap lengths included.

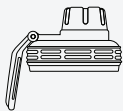

#### Zippered Front Pocket

The zippered pocket is perfect for storing personal items. Secure your phone, keys and credit cards in the front pocket on trips.

#### Side Grip Handles & D-Ring

The side grip handle makes it easy to hold the bottle in your hands while running or a better grip to squeeze filtered water through faster. You can also attach your keys to the D-rings where you clip the straps to, making this case extremely handy.

### Dome & Twist Cap and Handle Lid

#### Twist Cap and Handle Lid

We've combined function and durability with a leak-proof twist cap and handle lid that holds and doesn't fall while you drink.

#### Dome Lid

Nostalgic sports bottle spout is perfect when using the bottle without the filter. The no fuss self sealing valve makes it easy to toss into your bag without spills or leaks.

## Survivor Filter®

SURVIVOR FILTER is a company with a simple goal - to provide people with access to clean water in any environment when they need it most.
