Cheryl Wilson Smith

Recognized for her innovative approach to glass casting – with a sort of manual 3-d printing technique – Cheryl won the 2015 RBC Emerging Glass Artist Award.

## Artist Statement

*My art explores the passage of time and my sense insignificance in the vast natural world around us.*

*Living in the far north, on the granite and gold of the Canadian Shield and surrounded by Boreal Forest, I explore that the formations, which resonates within my soul.*

*My sculptures, the gossamer fine yet intrinsically strong structures become an active receptacle for interpretations of time and lasting memory. A place for quiet contemplation*
