

## Simon Kadlutksiak

I was born December 10, 1962 on the Fox Main Dew line, when my father was working on the dew line near Hall Beach. I live in Hall Beach and have done some camping near my hometown. Now I live in Iqaluit for school and it is my first time living away from Hall Beach.

I have 3 brothers and 3 sisters, 1 son and 1 grandson. I am a carver and I carve animals and cribbage boards using ivory, soapstone and antler. I also make earrings and headbands, also kamiks out of leather, and parka. I like making everything. I learned from watching my father. I started carving when I was 11 years old. I am learning jewellery and metalwork at Arctic College. It is important that I can support my family with food. I love them. Thank you for buying my art.
