

# Revolve Safety Arms

## Description

We all dream of setting PR's in the gym and anyone who's ever attempted a PR will tell you that you will fail many times in that pursuit of greatness. With the Bench Fitness Revolve Safety Arm those failures come with much reduced risks. Coated with a high density plastic the Bench Fitness Revolve Safety Arm is designed to absorb massive weights without damaging your barbell. The Revolve Safety Arm will fit with the full range of Bench Fitness Revolve Power Racks. The Revolve Safety Arm also allows you to use our Revolve Band Pegs at additional heights and angles.

Our Revolve range offers you a full range of colours options and custom branding solutions available upon enquiry.
