

The Archive CD Books Project exists to make reproductions of old books, documents and maps available on CD to genealogists and historians, to cooperate with libraries, museums and record offices to scan and digitize their collections for free, and to provide money to renovate old books in their collection.

The Halifax and District Telephone Directory for December 1950

CA0220

To view the contents of this CD we recommend the use of Adobe® Acrobat Reader™. Use the “forward” and “back” buttons to browse through the pages. As a directory it is laid out in alphabetical order for ready access. We have provided some bookmarks to allow you to jump directly to specific locations. If you know the number of the wanted page it may also be selected by typing the number into the page number box, provided you have set up your viewing application so that the box is displayed on your screen.

This book is designed for easy access to the wanted information but we have also formatted it for computer text searches using Acrobat Reader™. While the OCR program we use to generate the searchable index for this book achieves accuracies in the high 90% area errors remain. The printing and the type of paper used in this book resulted in a rather low print quality. The print is easily read by human eyes but resulted in rather more OCR errors that we normally accept.

**Remember, there is no substitute for human reading,
do not rely on search results.**

For more books on CD from Archive CD Books, see the web pages at:
