

The Archive CD Books Project exists to make reproductions of old books, documents and maps available on CD to genealogists and historians, to cooperate with libraries, museums and record offices to scan and digitize their collections for free, and to provide money to renovate old books in their collection.

SASKATOON TELEPHONE DIRECTORY, Feb. 1944 CA0230

To view the contents of this CD we recommend the use of Adobe® Acrobat Reader™. Use the “forward” and “back” buttons to browse through the pages or use the bookmarks and then the “forward” and “back” buttons, or the scroll bar. You may also select a page number by typing it into the page number box, provided the box is displayed on your screen

Both this directory and the CD are designed for easy access to the wanted information but we have also formatted it for computer text searches using Acrobat Reader™. While the process we have used to generate the searchable index for this book achieves accuracies in the high 90% area it should be assumed that errors remain.

**Remember, there is no substitute for human reading,
do not rely on search results alone.**

For more books on CD from Archive CD Books, see the web pages at:

ABOUT THIS CD:

A standard subscriber issue telephone directory for both metropolitan and rural Saskatoon for February 1944. Rural districts include the hamlets of Cheviot, Clark's Crossing, Floral, Pike Lake and Warman. In addition to the subscriber's name their address and the type of address, i.e., residence, business, etc. is given.

As usual the pages of the directory are liberally sprinkled with local advertising but the 24 page Classified Business Directory at the rear of the book is a bonus directory of Saskatoon industry.

As a directory all entries are alphabetized so finding a name is a simple matter of paging through. Never the less we have made the whole directory computer searchable and then enhanced the search-ability with our FastFind technology. This will allow you to use advanced search techniques such as, for instance, identifying all the people subscribed on a single road, or all the "plumbers" despite their not being entered in the classified part of the directory.

An excellent tool for tracing family members, and others, living in Saskatoon in 1944.
