

## ***Aloe Ferox Leaf Powder***

Supports normal, daily, healthy bowel function.

***Aloe Ferox Leaf Powder*** is made from South African wild-grown, Aloe Ferox plants. Sustainable harvesting allows the Aloes to thrive for many years. Mature Aloe Ferox leaves are cut from the stem, the bitter sap drained and leaf gel is sun-dried before being milled to a fine powder. Nothing else is added. Packaged in Miron Violet Glass for maximum protection.

Nutrients found in the leaf gel of Cape bitter Aloe Ferox, includes vitamins, minerals, essential fatty acids, essential amino acids, polysaccharides, chlorophyll and fiber. A small amount of bitter anthraquinones remains in the dried leaf gel powder. The Aloe Ferox Leaf Powder, is the least bitter of immunologic's Aloe Ferox products.

Aloe Ferox is the king of nature's multi-vitamin plants, with a complex of compounds that supports normal, daily, healthy bowel function, immune response, skin and liver-gallbladder health. Warm tea of Aloe Ferox Leaf Powder supports normal healthy bile flow.

***Aloe Ferox flowers in winter, with seeds pollinated by Sun Birds.***

**Suggested use:** 1/4 teaspoon taken as a warm tea, once or two times daily.
