Dust off those vintage brooches and lapel pins. Whether a flea market find, a family heirloom or a new treasure from the likes of Chanel or Louis Vuitton, decorative pins are back as the accessory of the moment for both ladies and gentlemen. They come in numerous shapes and forms: badges, brooches and stick pins in classic bows and crests, modern florals, animal silhouettes, arty graphics and symbols. For a simple styling trick, pins add instant personality to an outfit, particularly neutral basics, coats and suiting.
