

60 COMBINATIONS

COLOR MIXING GUIDE

INSTRUCTIONS:

This guide indicates the number of drops to color
1 cup of Meringue Frosting, Fondant,
Buttercream or Royal Icing.

Whipped Cream needs more color, to paint 1 cup
multiply the number of drops by 1.25

TIP:

To apply drops faster and of the same size,
when exerting the pressure, we recommend sticking the
tip of the bottle to the frosting. Remember that more color
is required when using a mix combination color
than using the direct color.

1 bottle of 1.41 oz yields approx. 320 drops

HOW TO APPLY THE DROPS?
