Rasmus Gottlieb

Rasmus Gottlieb (Born 1977) is a contemporary danish designer and artist working with conceptual based projects. He works in a cross media and contextual field where some projects are received more as art rather than typical design.

"To me it's all about creating objects that are impossible not to notice, ideas which are contagious and stays in the heart forever."

With a portfolio ranging from graphical design to industrial design, from commercial concepts to art, Rasmus is a strong head of design at LULU.
