

Natural Edge

A “no binding” finishing technique, giving the appearance of a natural, clean factory edge. Now available in the following styles- Mayan Riviera, Island Colours, Northwest, Paradise Retreat, Royal Meadow, Royal Vista, Royal Peak, Royal Valley, Symmetry, Admiral, Tiki, Bungalow, Jute Chevron, Jute Nobby Dobby, and Jute Textured Boucle. Rugs with natural edge finish are cut by following the valley of the ribs along the buried thread. The variation in size and texture of natural fibers, such as sisal, jute, and seagrass, will often result in irregular weaves. Ends and edges may be slightly out of square when cut due to the natural imperfections. Tight tolerances cannot be held, the dimensions can be off as much as 2". Attached non-skid rug backing is recommended.
