

Motorized Apollo Workstation

SKUs:

Motorized Apollo 40: **AE 0040-M**

Motorized Apollo 52: **AE 0052-M**

Motorized Upgrade
for Apollo 40: **AE 0040-MB**

Motorized Upgrade
for Apollo 52: **AE 0052-MB**

Our heavy-duty collapsible workstation gets a boost with motorized wheels at the press of a button. The Motorized Apollo Workstation is a fully integrated system that allows users to effortlessly move the heaviest of payloads with ease across studios, campuses, and rough terrain to save time and reduce physical strain. The handle throttle assembly powers forward and reverse movement of the two rear wheels, for up to 15 hours or 40 miles of full throttle use. The power supply is integrated into the bottom shelf drawer and provides additional power distribution.

Available in both Apollo 40 and Apollo 52 sizes.

Also available as an upgrade to existing Apollo 40 and Apollo 52 workstation carts.

KEY FEATURES

- 1,200 lb. Payload Capacity
- Forward and Reverse Throttle
- Dual 10 in. Motorized Wheels
- Hydraulic Disc Brake System
- Weather-Resistant Connectors
