

# BREAD CRATE

## Product Overview

A Plus Plastics offers an affordable plastic tray that caters for the handling of delicate baked goods, whether they are baked breads, rolls or confections. Our Bread Crate can carry heavy loads without sagging. They are lightweight yet tough and dependable, allowing you to stack your goods without damage. The design features allow for visibility of the goods through the vented base with smooth surfaces avoiding any snags on the product packaging.

Our Bread Crate has all the features our customers have come to expect.

- Ability to stack and nest
- Staggered base hole pattern, designed to reduce plastic sleeve and product damage
- Smooth interior and additional corner ribbing for extra strength and long life
- Suitable for line production, transportation and storage (full or empty)
- Moulded in food grade copolymer Polypropylene
