A Plus Plastics Product Range

AP A+ PLASTICS

ISO 9001 and ISO 14001 Certified Excellence

A Plus Plastics, synonymous with quality Australian-made rigid storage and packaging solutions, proudly manufactures all its products from their ISO 9001 and ISO 14001 Certified facility located in Minto, NSW. Our unwavering commitment to exceptional quality and environmental standards ensures ISO certifications, instilling trust in the premium quality of our extensive range.

Over 60 Proprietary Products

Explore our diverse core range of over 60 proprietary products, with an array of colour options and material choices, to find the perfect fit for your business every time.

Extensive Material Options

Choose from HACCP certified virgin polypropylene or sustainable polymer solutions within our core range. Embrace sustainability with our Recycled Reprolene™ products, as we champion eco-friendly business practices.

Custom Injection Moulding Services

As pioneers in injection-moulded product design and manufacturing, we offer custom moulding services through our parent company the Holloway Group. Contact us at +612 9603 2088 for more information and quotes.

Proudly Australian-Made

At A Plus Plastics, being Australian made isn't just about where our products are manufactured; it's about quality, trust, and our unwavering commitment to support local jobs and industry. Our products proudly carry the iconic Australian Made green and gold kangaroo logo, symbolising the standard of quality and authenticity that Australians have come to rely on.

Contact Us

For detailed product information or sales quotes, reach out to your A Plus Plastics Territory Sales Manager or contact our Customer Service Team at +612 9603 2088.

Discover the A Plus Plastics difference today.

A team of over 70 operators, sales and logistics staff operate 24 hours a day to deliver quality, Australian made products.

Food & Materials Handling

The A Plus Plastics range of food & materials handling storage products are HACCP certified as safe for food contact, at every stage of the food manufacturing process. Available in stackable and nestable options, our food & materials handling products are industrial grade and manufactured to last.

You'll find A Plus Plastics food & materials handling products in fishing, small goods, poultry and meat trade businesses, schools, healthcare and professional trade businesses.

Ideal for:

- FOOD MANUFACTURING
- FISHING TRADES
- EDUCATION
- HEALTHCARE
- PROFESSIONAL TRADES

Designed to optimise your available space, when empty or filled!

A Plus Plastics Food & Materials Handling storage products are nestable and stackable, both with and without companion lids.

This promotes maximisation of space when empty, and easy transportation and storage when full.

A Plus Plastics products are manufactured to be industrial quality to ensure our customers and clients are provided storage solutions they can rely on in their own businesses.

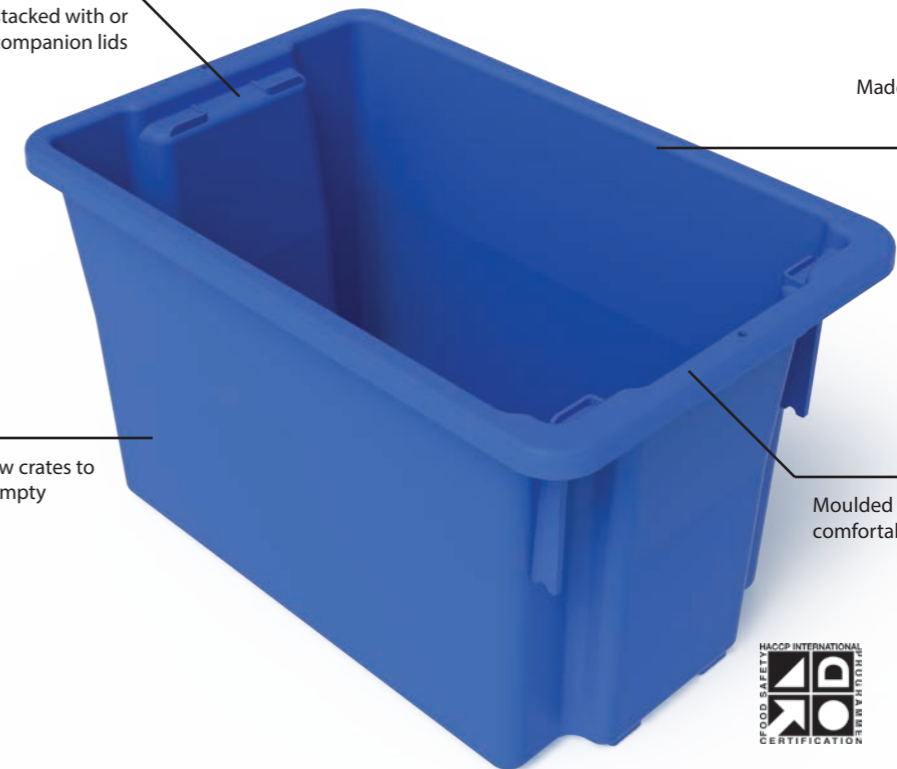

Stack and Nest crates nest for neat and easy storage when empty

Enviro Materials Handling

The A Plus Plastics Enviro Materials Handling Range is a 100% recycled, 100% recyclable, industrial grade storage range manufactured from our proprietary blend of recycled plastic, known as Replene™.

Replene™ retains the durability and impact resistance qualities of virgin polypropylene whilst redirecting plastic waste from landfill. Available in popular materials handling sizes, the A Plus Plastics Enviro Materials Handling Range is the sustainable choice for any business.

Ideal for:

- RELOCATION SERVICES
- PROFESSIONAL TRADES
- EDUCATION
- LOGISTICS
- SUPPLY CHAIN SERVICES

Sustainable solutions from A Plus Plastics

- Over 30% of A Plus Plastics are available in Replene™
- All plastic products from A Plus Plastics are 100% recyclable
- 100% of plastic waste, including off cuts, seconds and product returns unfit for sale are reground for future use

Security Storage

The A Plus Plastics range of security storage crates have been designed to provide a safe and secure solution for commercial and domestic storage of documentation. Stackable and nestable, both the 34L and 68L security crates maximise storage capacity without compromising space when empty.

With more staff working both on and offsite, our security crate options comply with most workplace health and safety standards when used in conjunction with A Plus Plastics skates.

Ideal for:

- RELOCATION SERVICES
- OFFICE ARCHIVES
- HOME OFFICE
- TECHNOLOGY STORAGE
- OFFSITE STORAGE

Lock and Save with Australia's most versatile storage and transport solution!

Made from high quality food-grade plastics and both fast and easy to assemble, the Lock & Save Produce Bin® is a tough, light-weight storage bin using a patented Lock and Unlock system.

Producers can safely combine a nesting bin and pallet for food storage, capable of stacking up to ten bins high. Our patented Unlock system separates the nesting bin and pallet for maximised storage capability, providing a stacking height of 26 nesting bins and 38 pallets for our Large 780 L Nesting Bins.

Importantly, our bins are compatible with existing plastic food bins in the market. The Lock & Save Produce Bin® is available as a 2-Way bin in a Large 780 L capacity, with vented nesting bins for fresh produce storage and transport, as well as non-vented nesting bins for meat and poultry producers.

Spare Parts

Keep your workspace clean and organised with A Plus Plastic's industrial range of spare parts storage. Widely adopted by professional trades, the home handyman and healthcare, A Plus Plastics Tech Bins and Tech Trays make organisation of small parts or spare items easy.

Find what you need, when you need it with A Plus Plastics Spare Parts Range.

Ideal for:

- PROFESSIONAL TRADES
- MOBILE TRADE VANS
- HEALTHCARE
- CHILDCARE
- HOME WORKSHOPS

GEOHEX™ EROSION CONTROL SYSTEM

Introducing GeoHex, a versatile and eco-friendly erosion control system now featured in the A Plus Plastics catalogue. GeoHex is designed for various landscaping and erosion control needs, offering stability and soil erosion prevention. It's ideal for residential & rural driveways, cattle and equine feedlots, golf courses and hardstand areas and more, providing a cost-effective and environmentally conscious alternative to traditional methods. With its interlocking design and water permeability, GeoHex is a valuable addition to A Plus Plastics' product range, promoting sustainable landscaping solutions for a greener future.

For more information on GeoHex, visit www.geoHex.com.au

Ideal for:

- CATTLE & EQUINE YARDS
- DRIVEWAYS & PATHWAYS
- GOLF COURSES
- HARDSTANDS
- LANDSCAPING APPLICATIONS

GeoHex™ Erosion Control System

GeoHex™ Erosion Control System

GeoHex™ Erosion Control System

The innovative Australian GEOHEX™ Erosion Control System stabilises turf and substrate in a myriad of applications.

With a load rating of 1,200 tonnes per square metre when filled, the GEOHEX™ Erosion Control System is a safe and cost-effective substitute for concrete in many applications. Made from 100% recycled plastic, it is environmentally friendly, and its lightweight design reduces logistic costs, while at the same time, increasing ground stability and water conservation.

GEOHEX™ is easy to install, can be laid in any weather and only requires minimal ground preparation.

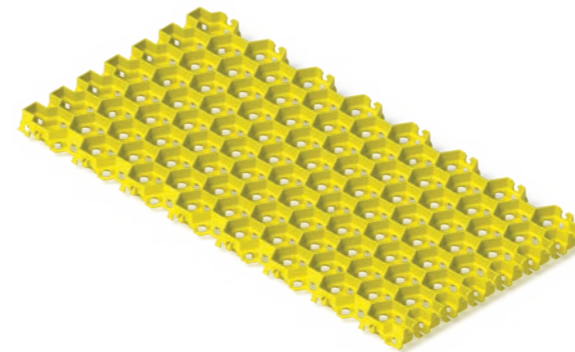

Product Code: APGEOHEX

Dimensions: 500mm x 1000mm x 42mm (2 GEOHEX Pavers = 1 Sqm)

Weight: 2.3kg

Pallet Quantity: 170 panels (85sqm)

SAFETYHEX Surface Stabilisation Pavers

Discover SAFETYHEX, the Australian made solution for enhanced construction site safety. Engineered for strength and visibility, it creates clearly marked exclusion zones as per SWMS.

SAFETYHEX creates a permeable and safe surface for earthmoving machinery, maintenance vehicles and foot traffic and is capable of withstanding up to 1,200 tonnes per square metre when filled.

Its unique hexagonal voids promote efficient drainage, preventing rutting and runoff. The iconic 'Safety Yellow' colour ensures easy zone identification. Made from robust copolymer polypropylene, it's heat-resistant and chemical-proof. SAFETYHEX is a lighter, faster alternative to concrete or asphalt. Ideal for use on mine sites and heavy industrial.

Product Code: APSAFETYHEX

Dimensions: 500mm x 1000mm x 42mm (2 SAFETYHEX Pavers = 1 Sqm)

Weight: 2.3kg

Pallet Quantity: 170 panels (85sqm) | MOQ = 10 Pallets

Custom Branding Options

Custom Branding

Customise your products by colour and brand

Products manufactured from virgin plastic can be manufactured from a selection of custom colours. Align your products with your company's branding and create a solution that is easily identifiable by your customers, partners and end users. Please note, a minimum order quantity (MOQ) of 60 units applies for all custom branding options.

Custom Hot Stamping

Hot stamping is recommended for larger logos, designs or products that will be used outdoors.

Custom colours to match your company's branding.

Hot Stamping

Screen Printing

Custom Screen Printing

Screen printing provides greater flexibility with smaller logos and designs and is recommended for products used indoors. Sequential numbering is also available.

Hot Stamping & Screen Printing Fees & Costs

ITEM & QUANTITY	PRICE (EX GST)
Printing Setup	\$400
60-120	\$5.00
120-480	\$2.70
481+	\$1.70

Freight Costs & Other Considerations

Freight Costs & Other Considerations

Orders delivered to state and territory metro regions are eligible for FIS shipping (free into store) on order totals above \$750+GST. Orders below the \$750 order value will be subject to a freight charge of \$90 or above. Please note, additional freight charges will apply for deliveries outside of state and territory metro regions.

Please note that all GEOHEX™ orders will include a minimum freight charge of \$90 for all metropolitan areas. For areas beyond the metro, freight charges will be provided upon quotation.

For more detailed information on applicable freight charges in your state or territory, speak with your Territory Sales Manager or our Customer Service team on +61 2 9603 2088.

Minimum Order Requirements

Minimum Order Requirements

Orders must meet a minimum order value of \$250+GST.

The minimum GEOHEX™ order requirement is one full pallet, encompassing 85 square meters. Please note that we do not split or break down pallets for GEOHEX™ orders.
