

TECH RANGE: TECH TRAYS - APTB28

Product Overview

A Plus Plastics range of small part bins branded Tech Trays provide a solution to storing various sized items in an efficient manner allowing for better access and stock keeping control.

The Tech Trays are manufactured from polypropylene for improved strength and have been designed and manufactured to be lightweight and durable.

The range provides a variety of bins and trays that can be used in many different environments to safely store and organise everyday items in the work place.

Dividers are also available with our Tech Trays to further maximise the efficiency in storing of items in the workplace, further enhancing accessibility and control.
