

FISHING RANGE: AP6

Product Overview

Widely used in the fishing industry across Australia and New Zealand for the storage and transportation of all types of seafood.

Our crates are of industrial strength and manufactured from food grade material, Australian made from tough durable UV resistant food grade polypropylene.

The polypropylene material is suitable to be snap frozen making them ideal for seafood and food industries.

These storage containers have the ability to stack and nest and are available in various stocked colours or a custom colour can be supplied for a minimum order. The containers are a lightweight, multipurpose companion for all storage needs.

Food grade stack and nest crates storage containers are made are available in a more economical recycled material option (non-food grade).

Bulk quantity discounts apply, please contact our office for more details.

35L Fishing Range: AP6
Technical Specifications

	Specifications (industry standard): L 713mm x W 442mm x H 222mm
	Weight capacity 40 kgs
	Weight: 1.98 kgs
	Pallet quantity: 80 units for a full pallet (under 2 metres)
	Material: Industrial strength – made from heavy duty, durable PP material – able to be snap frozen
