

TECH PAK

Product Overview

The TechPak was designed to keep all your spare parts organised. This is done with interchangeable dividers that sit flush with the lid so that nothing can be mixed with each other during transport.

The clear lid allows the user to be able to see exactly what is in the TechPak without even lifting the lid.

The base and clips are made from industrial strength ABS, while the lid is made from a clear polycarbonate.

TechPak
Technical Specifications

	Specifications (industry standard): L 429mm x W 373mm x H 83mm
	Easy clip mechanism on lid
