

Using the Sun to Build a Better Generator™

NUE-POWER 24V 200AH

A professional-grade lithium iron phosphate (LiFePO4) battery in rugged, waterproof ABS plastic case.

5120Wh of stored energy in a durable and easy to transport case. Bluetooth communication directly from the Battery Management System (BMS) provides accurate state of charge information and remote control capabilities

BENEFITS

- ✓ Easy to use Bluetooth App
- ✓ Vs. comparable Lead Acid Battery
 - 60% of the weight
 - 20+ times longer cycle life
 - tolerates prolonged deep discharges
 - five times longer calendar life in float applications
 - 2x the energy, even with a higher discharge rate
 - better tolerance of high temperatures
 - lower lifetime ownership cost
- ✓ Vs. comparable nickel manganese cobalt (NMC) battery
 - higher thermal runaway point
 - reduces the risk of explosion or combustion due to dropping/hitting the battery, overcharging the battery, or short circuiting it

APPLICATIONS

- ✓ Remote power installations
- ✓ Home backup
- ✓ Off grid solar kits

Specifications

NUE-Power Version	24V 200Ah
Battery Type	Lithium Iron Phosphate (LiFePO4)
Storage Capacity	5.12 kWh
Estimated Cycle Life based on an 80% Depth of Discharge (subject to other variables including temperature and load)	6,000
DC Nominal Voltage	25.6V
Operating Voltage Range	24-30V
Max Continuous Charge Current	150A
Nominal and Minimum Capacity	200Ah
Max Continuous Discharge Current	150A
Peak Discharge Current	160A 3-7S
Maximum in Parallel	20
Discharge Temperature Range	-4-140°F (-20-60°C)
Charging Temperature Range	32-131°F (0-55°C)
Weight	91lb (41kg)
Dimensions	21"x11"x9" (52x27x22 cm)

Warranty and Certifications **5-YEAR LIMITED MANUFACTURER'S WARRANTY**
UN 38.3, UL (Cell), and CE (Cell)Certified.
