If any component within your NUEPower™ Battery fails due to a manufacturing defect or component failure within five (5) years of purchase (subject to the limitations below), we will repair or replace your battery free of charge. You will be required to safely pack and ship your battery to an authorized service center at your cost. If your battery is eligible to be repaired or replaced under warranty, NUE will cover, at no additional cost, the repair or replacement of the defective component along with return shipping. If your battery is not covered by warranty, NUE will provide a repair cost estimate that you can accept or reject. If accepted, NUE will repair your battery and return it upon payment of the repair cost. If you chose to not have your battery repaired, you can pay for return shipping or have NUE safely dispose of your battery in an environmentally responsible manner.
