

MAKERS

MERCANTILE & STUDIO, LLC

In an effort to create a cohesive and visually appealing retail establishment, we have developed a Makers Mercantile & Studio aesthetic. Please take note of display pieces that will not conform to our display requirements and keep the overall aesthetic in mind when creating your booth design.

All final displays must be approved by Makers Mercantile & Studio.

- Displays may not include pegboard, chicken wire, fence pickets, or other unfinished materials. Free-standing black grid boards are acceptable. No commercial storage shelves. Please note - nothing can be attached to the brick, but can be secured to the baseboard.
- Displays should be white, black, gray, natural wood, or a combination thereof. Folding tables are acceptable but must be covered with a black, cloth, floor-length, or elastic-fit tablecloth. Tablecloths must be tight and cannot pool on the ground or create a trip hazard. **This aesthetic does not apply to approved furniture or items that are approved for sale by vendors.**
- Please utilize our signage templates for all temporary signage (%off, BOGO, etc) for all display signage - (will be available in the vendor section of our website)
- Special requests for templates, signs, or marketing materials can be made by emailing info@makersmercantilestudio.com.
