

Brings back some normality to everyday life

Equipped with effective filter technology, sasoo demonstrably reduces the particle load in the air and thus also the risk of infection with SARS-CoV-2.

As a supplement to the usual hygiene measures, sasoo is a reliable and equally powerful companion for everyday life.

Technical data	sasoo s
Recommended room size	up to 30 m ²
Volume flow, free-blowing	1,200 m ³ /h
Volume flow, unit, controllable	400 m ³ /h
Recommended room volume, 6-fold air exchange	up to 65 m ³
Recommended room volume, 4-fold air exchange	up to 100 m ³
Current consumption	11,5 - 46 W 0,05 - 0,2 A
Electrical connection	230 V 50/60 Hz
Volume	< 49 dB(a)
Mobility	Manually drivable
Filter 1	F7-pre-filter with activated carbon fibres
Filter 2	H14-Compact filter, 13m ² filter surface
Width	65 cm
Depth	35 cm
Height	77 cm

*Handy, mobile,
unobtrusive*
sasoo blends in easily
into the environment
