CUTLERY

↻ SURFACE FINISHES FOR CUTLERY:

VINTAGE FINISH:

We create a matte surface by polishing the cutlery with special ceramic balls. The rougher surface created by this finish can lead to a build-up of residue from food and cleaning, which in the case of poor maintenance may cause stains or corrosion. Note that this treatment lessens any markings to a small degree.

QUANTITIES:

Our vintage finish is available on orders of **300 pieces minimum**.

With cutlery sets, we'll process orders on individual pieces, provided that the total quantity of the order is 300 minimum.

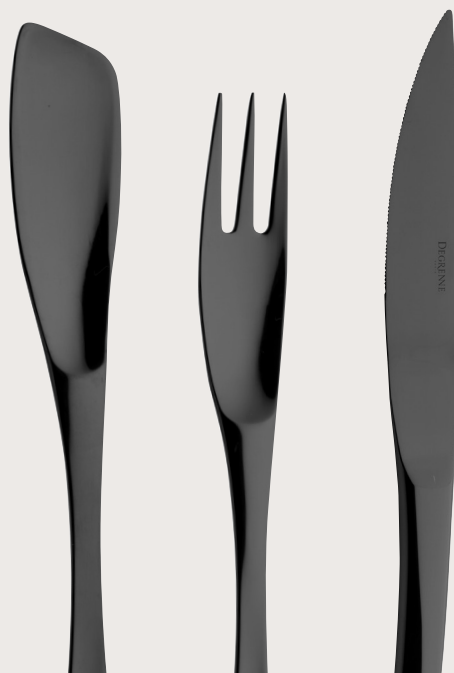

For technical reasons, **a tolerance of +/- 5% applies** to delivered quantities.

DELIVERY TIME:

6 to 8 weeks, customer services to specify the exact time upon order confirmation.

PVD COATING:

Metallization process resulting in an ionic veneer. Available in particular circumstances; please contact our teams. Quote communicated on request.
