

Texture Options

Texture is a great way to add depth and interest to any project. Our textures are unique and one-of-a-kind.

Available Textures: Arts & Crafts, Burlap, Hoops, Parquet, and Ridges.

Nearly all of our glazes can be used on a texture body. Transparent glazes show off the texture, while opaque glazes create more subtle effects. Choose the effect that's right for your project.

Some sizes not available for all textures.

This can be a wonderful creative exploration for you, your designer, and the McIntyre team.

Variations in color, sheen, size and shape are to be expected in handcraft tiles!
