

FIND YOUR RING SIZE

1. MEASURE A CURRENT RING

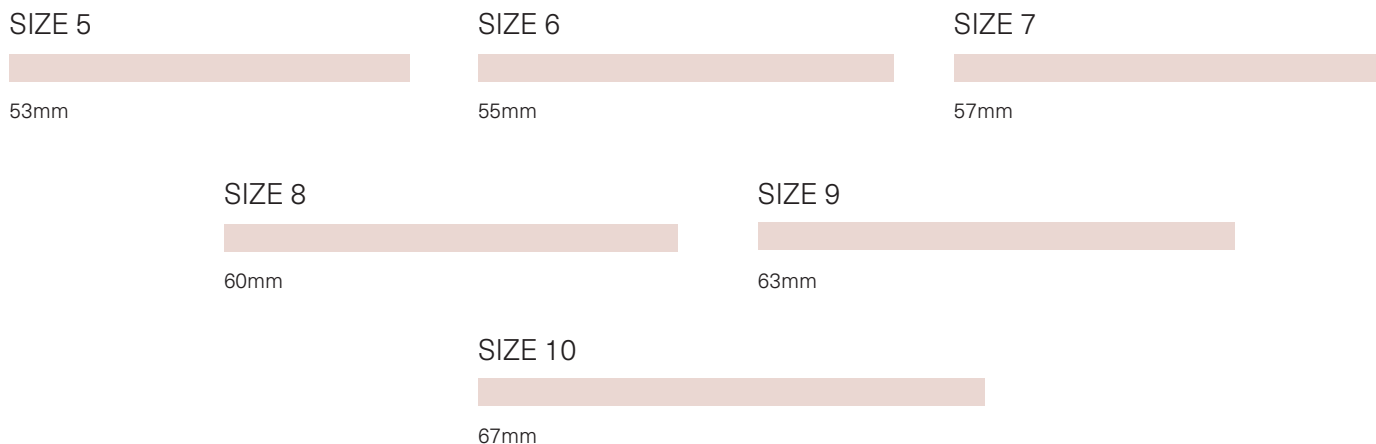

Place a current ring that fits perfectly on your finger over the nearest sized circle of the Ring Size Chart. The inner edge of the ring should align with the outer edge of the circle.

Please note: if you are measuring for our thicker band rings, we do recommend going up a size.

2. MEASURE YOUR FINGER

Measure around the widest part of your fingers (the knuckle) with a tape measure (or piece of string). Once you have your measurement, line it up with the measurements below to find your ring size.

SCALE

To get the best results, you will need to go the 'printing options' before printing and ensure that the 'page scaling' option is set to 'scale to fit'.

The ring size chart must be printed to scale on a full A4 page size. To check the ring size chart has been printed properly, take a ruler and measure the sample below. It should measure exactly 50mm.
