

A close-up photograph of a hand holding a silver spoon over a white bowl filled with tomato soup. The spoon is tilted, and a small amount of soup is dripping from it. The bowl sits on a white saucer, which is placed on a yellow and brown checkered tablecloth. The background is softly blurred, showing a white plate and a knife. The overall scene is warm and inviting, highlighting the use of eco-conscious tableware.

EKOBO  
HOSPITALITY

ECO-CONSCIOUS  
TABLEWARE & ACCESSORIES

## *Designed for Good*

Since 2003, EKOBO has specialized in the design and manufacture of contemporary, eco-friendly tableware, serveware & accessories made from bamboo fibre and other sustainable materials.

Our collections have been thoughtfully developed for the needs of the hospitality industry. They embody a new vision which balances an innovative material, real functionality, and sophisticated design.

We offer a safer and more sustainable alternative to plastic and melamine dishware, which is also lighter and less fragile than traditional materials such as glass and ceramic.

Forward-thinking restaurants, caterers, and hotels can demonstrate their commitment to making the environment a priority without compromising on design or performance to fit their beautiful and meaningful concepts.

EKOBO chose bamboo because it is one of the most renewable resources on our planet. It has been recorded that bamboo can grow up to one meter per day.

It requires no fertilizer, pesticide or herbicide. A true ecological miracle, this grass regenerates itself without having to be replanted and can be harvested every 3 years continuously without damage to the plant or its environment.

## OUR SIGNATURE MATERIAL IS A UNIQUE FORMULA WHICH HAS BEEN TRADEMARKED BIOBU®.

This trademark is our guarantee of safety and durability. Described as a biopolymer, our eco-composite is comprised of about half bamboo fiber, a highly renewable material, and half non-toxic food-grade binder, which helps to extend the life of the products (a sustainable practice!).

Our bamboo is FSC-certified meaning it is responsibly-sourced and managed. It is collected as sawdust waste from chopstick factories. Our material is stable, unchanging and poses absolutely no health risk with daily use and is suitable for hot and cold foods and liquids.

There is no need for an external varnish, and the product maintains its appearance over time as it is the same material inside and out. Our products feature a premium matte finish. There is no varnish, coating nor paint on the surface of our products, so they'll never fade, peel or leach harmful chemicals.

All BIOBU products undergo regular and rigorous testing. They comply to all food safety standards around the world (FDA, LFGB & REACH) and are free of BPA, PVC, Phthalates, Lead, Cadmium and Mercury. They are manufactured with one partner factory that is BSCI compliant.

**TABLEWARE**

Modern dishware in multiple tones & shapes

**BUFFET & SALAD BARS**

Practical tableware ideal for display

**BRUNCH & APPETIZERS**

Durable and stackable

**CATERING**

Durable & reusable dishware

## STATEMENT OF CONFORMITY

As pioneers in eco-design and experts in bamboo since our launch in 2003, we are constantly on the forefront of innovation in design and manufacture of bamboo fibre tableware and home accessories.

Our signature BIOBU® eco-composite is described as a biopolymer, which means it is comprised of about 50% bamboo fibre, a highly renewable material, and 50% non-toxic food-grade A5 melamine binder, which makes it durable and reusable. Our bamboo fibre is responsibly-sourced sawdust which is collected as waste from select bamboo chopstick factories.

We manufacture our custom-designed products with an exclusive partner. Our factory is not only BSCI-compliant in social responsibility, but we work together with our factory, never cutting corners, to manufacture the safest and most premium bamboo fibre goods on the market.

Our material is stable and unchanging and poses absolutely no health risk with normal daily use. Our products are tested regularly at the factory, and undergo independent testing in Europe.

All EKOBO products comply to all food safety standards around the world (FDA, LFGB & REACH) and are free of BPA, PVC, Phthalates, Lead, Cadmium and Mercury.

**NOTE:** Our BIOBU® Eco-Composite products are made with natural materials; slight color imperfections or inconsistencies may occur. Our "white" is an off-white as it is the natural color of bamboo.

While our products are durable and long-lasting, this eco-friendly material is not unbreakable. It will not shatter like ceramic or glass, but if dropped at a bad angle on a hard floor, a chip or crack may occur.

## MATERIAL SPECIFICATIONS

### BAMBOO

Responsibly-sourced bamboo & 100% food safe resin

Free of BPA, PVC and Phthalate

Dishwasher Safe

No microwave / No oven use

Award-winning design

### SILICONE

Free of BPA, PVC, Phthalate & Latex

Dishwasher Safe

Toddler-proof (unbreakable!)

Microwave, oven and freezer safe (-40°C to 230°C)

Award-winning design
