

Desert Mountain High School

Home of the Wolves

January 28, 2020

To whom it may concern,

I am writing this letter to recommend Kylan Faubion for the Chancellor's Scholarship. I first met Kylan in the fall of 2015. I had the pleasure to act as Kylan's Software Development I and II teacher at Desert Mountain High School.

During this time, I observed Kylan demonstrate just how skilled he is in working with programming languages. He is a very conscientious student that always created strong work that not only met the project requirements but often exceeded them with clever features or creative solutions. His programming work exhibited both his aptitude of learning technical aspects of a language and more but also how they are to be applied in project settings. Kylan took pride in making sure that he presented his work with thorough explanations. He was always prepared to answer follow-up questions and never failed to convince me that he understood why things worked the way they do.

Kylan has an engaging personality and easily makes friends. He's not afraid to offer his opinion in class and ask a question when he's curious. Kylan's approach and demeanor in class makes him a great asset for other students to learn from. Along with his always positive attitude, Kylan's personality is a pleasure to be around.

I have no doubt that Kylan will achieve each of his goals. His unique balance of talent and drive makes him a very special person. Any program would benefit tremendously by having Kylan a part of it. I appreciate all of your efforts in considering Kylan. Thank you for taking the time to read this letter.

Sincerely,

Neal Johnson
