

RING SIZE GUIDE

Before measuring your ring size, be sure this guide is printed in US Letter size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below or placing the correct coin in one of the labeled ring sizes. If the card or coin lines up, you're all set.

Option 1: Measure By Matching Your Ring

To find your  size, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should see only the white circle—with no blue space—inside your ring. If your ideal fit falls between two sizes, we recommend choosing the larger size.

Option 2: Measure with the Ruler

Wrap a THIN piece of string or paper around the base of your finger. Mark the string or paper where it overlaps to form a complete circle around your finger. Measure the length of the marked section of string or paper on a ruler or measuring stick, whatever you have handy. Compare your measurement with this chart to determine your ring size.
*If you are in between sizes, size up.
