

# MODEL CF3

Compact X-Ray thickness gauge

**QUICK & EASY  
MAINTENANCE**

**C FRAME DEPTH:  
500mm to 2000mm**

## CANTILEVERED C FRAME

- Enclosed
- Brushless motor
- Integrated HV power supply
- Embedded signal processing
- Low X-Ray current

## TYPICALLY CHARACTERISTICS

- X-Ray energy level optimized for thickness range
- Typical air gap: 250mm
- Spot size: 30mm diameter
- Static accuracy:  $\leq \pm 0.5\mu\text{m}$  or  $\pm 0.05\%$  of thickness

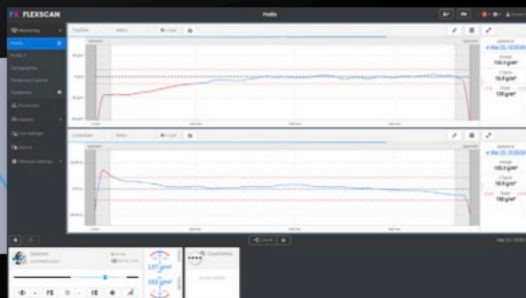

## MEASUREMENT

**Thickness**

**FX FLEXSCAN**

Chart recorder

INDUSTRY 4.0

X-RAY MEASUREMENT GAUGE

# **THICKNESS GAUGE**

**MODEL CF3 METAL**

NEW GENERATION OF METAL GAUGES

## **Thickness measurement using X-Ray technology**

**SCANTECH FEATURES:**

- Non radioactive
- SSA3 Electronic Architecture
- Compact C-Frame
- Designed for easy operation and maintenance

**APPLICATIONS:**

- Low carbon steel and alloys
- Stainless steel
- Aluminum
- Non-ferrous metals
