The King Kong Series Portable LED UV Lamp offers two versions which both feature 3 UVA LEDs and a white light LED, five steps of output intensity adjustment, and a laser pointer for collaborative inspection. Both versions provide the ability to operate from battery power or 125 VAC. While on 125 VAC power, the integrated charging circuit charges batteries, which makes it a perfect tool for fluorescent MT, PT, and leak detection where stationary use as well as mobility are required.

Manufactured as per ASTM & ISO & RRES & NADCAP & AITM standards.
