

## MTG-99 Magnetic Thickness Gauge Series

The **MTG-99 Magnetic Thickness Gauge Series** offers user-friendly NDT measurement for non-ferrous materials up to 1" thick with access to both sides. The flagship MTG-99 model is portable, battery-operated, features color change and vibration for alarms, and can include an optional internal datalogger.

It finds applications in measuring thickness in plastic bottles, containers, tubing, as well as materials like titanium, aluminum, copper tubes and pipes, and composite structures.

**Models Available:** MTG-99, MTG-99B, MTG-99B-ER, MTG-99ER

**Size:** 7.25" x 4" x 2" (184mm x 101.6mm x 50.8mm)

**Operating Temperature:** -4°F to 122°F (-20°C to 50°C)

*This product is manufactured to all industry standards.*
