# Magnetic Field Indicator

#E-MFI

- 3 Models Available
- Precise Measurements
- Easy to use

The Magnetic Field Indicator is your reliable magnetometer solution for the NDT industry. Designed to meet the demanding needs of nondestructive testing professionals, our product provides accurate and precise measurements of residual magnetic fields.

With three distinct models available, you can choose the perfect fit for your specific requirements. Calibration certificate available upon request.

- -10/0/+10 Gauss Range
- -20/0/+20 Gauss Range
- -50/0/+50 Gauss Range

It is manufactured as per industry standards.
