WP Aerosol

#WP

- Fast Drying: Improves Productivity
- Excellent Indication Visibility
- Uniform Coating: Optimum Particle Mobility
- Low Odor: User Friendly
- Thin Film: Easily Removable

ZChek-WP is a high performance solvent based white contrast paint used for providing an excellent background while performing magnetic particle inspection using non-fluorescent black powder, recommended to use with ZChek-9-E Black. **Sold as a pack of 12/17.5 oz cans.**

Directions for use: Pre-Clean surface using ZChek-CR or ZChek-CL. Spray directly on the part surface and clean with a cloth or a brush. Apply ZChek-WP by spraying and allowing drying before performing the MPI.

It is manufactured as per ASTM, ISO, AMS, ASME standards.
