INNOVATION-LED WEIGHING

STU-1K

"STU-1K": Tension/Compression load cells

Tension/Compression load cells, suitable for weighing in tension suspended loads and as overload checking and limitation, or for compression use in the creation of weighing systems with various load cells.

CAPACITIES (kg): 2000, 5000, 8000, 10000.

OIML R60. C3 precision class.

Stainless steel. IP68 protection.

The best solution
for advanced industrial
applications

MAIN FEATURES

- C3 PRECISION CLASS
- STAINLESS STEEL CONSTRUCTION
- IP68 PROTECTION LEVEL
- MAX. CAPACITIES FROM 2000 TO 10000 kg
- 3m SHIELDED CONNECTION CABLE

TECHNICAL FEATURES

- nLC: 3000
- Y: 12000(compression, $Y=E_{max}/V_{min}$)
- Y: 9500(tension, $Y=E_{max}/V_{min}$)
- Cn: 2,4 mV/V
- Input: 1000 +/- 20 Ohm
- Output: 1000 +/- 5 Ohm
- Excitation: 1...10Vdc
- Safe Overload: 120%
- 6-wire shielded cable, 3 m long, 5mm diameter

MAIN CERTIFICATIONS

- OIML R60
- Australian legal for trade certificate of approval (NMI S840)

DETAIL 1

Dimensions (mm)
